About Me

Software Engineering student with solid knowledge of programming and data structures. Experience developing academic and personal projects using TypeScript, PHP, Kotlin, and SQL databases. I am known for being a quick learner and problem solver, looking for an opportunity to apply my knowledge in a professional environment and continue growing as a developer.

Education

SENATI, Software Engineer in Information Technologies – Chiclayo, Lambayeque, Peru   Aug 2023 – present
• Working on the optimization of autonomous vehicles in urban environments

Experience

Full Stack developer, Municipalidad Distrital Jose Leonardo Ortiz – Chiclayo, Lambayeque, Peru   Feb 2025 – July 2026

Developed full stack web applications for multiple services, bringing modernity and efficiency to development.

Frontend Developer, Tecnosolutions – Chiclayo, Lambayeque, Peru   June 2025 – Jan 2026

I developed scalable and modern web applications when my services were required to complement their backend services.

Projects

Dialcash   Aug 2025 – Jan 2026

An Android application for track, understand and organize your personal finances.
• The app is made open-source (on GitHub)

Dialca UI   Fall 2025

A component library for React, designed for rapid development and full customization.
• The library is made open-source (on GitHub)

Skills

Programming: Proficient with TypeScript, PHP, and Git; good understanding of Web, app development, and seeking to improve my skills

Languages: English (basic), Spanish (native)
